PLEA FOR NEGROES.

In the Past 23 Years the Institute Has Sent Out 6000 Negroes to Become Useful Men, Well Equipped as Teachers and Skilled Mechanics. A \$65,000 Boarding Hall is Now Needed—Booker T. Washington Makes a Plea for Aid.

Very few people in the North understand the aim and scope of the Tuskegee institute, founded and managed by Booker T. Washington. It is really the greatest negro institution in the world, and the following letter from Washington to the Denver Post will give an outline of its extent:

To the Denver Post:
You have been so generous to us in the use of your columns that I hesitate to ask another favor. If you can see your way clear to publish the enclosed statement or make a partial use of it, I shall be most grateful.

During the 23 years that the Tuskegee Normal and Industrial Institute has been in existence, counting those who have finished the course together with the much larger number of those who have remained long enough to get into the spirit and methods of the institution, we have sent out quite 6000 men and women who are doing effective work, mainly in the South as teachers, both in the class room and of the industries, as mechanics, and in domestic work.

Practically all of our graduates are in demand even before they graduate, and a large proportion of our men and women are employed by Southern white people at an average daily wage that is nearly three times as great as that paid to the average ignorant, untrained colored man or woman. At the present time there are 1243 students enrolled. The institution has proven its right to exist and its claims upon the public.

Just now there are three urgent needs which I think the public would like to know about and assist us in meeting:

First—The annual cost in operating the institution is \$160,000. Of this amount we can depend upon \$69,933 from assured sources, leaving \$90,067 to be raised through the gifts of friends.

Second—Increase of our endowment fund from its present figures, \$1,030,552.28 to at least \$2,000,000.

Third—Sixty-five thousand with which to build a new dining hall—\$19,000 of this amount now being in hand. No need of the school is more urgent than this one. The students will make the bricks and do most of the work on the building, so that the money would not only provide the building, but would give students the chance to earn money and learn a trade.

We shall be glad of money toward one or all these purposes. The smallest sum will be gratefully received. Money sent to the school for these objects will enable the principal to spend a larger proportion of his time and strength on the school grounds and in the South where his services are much needed.

For the trustees,
BOOKER T. WASHINGTON,
Tuskegee, Ala. Principal.

BILL TO DO AWAY WITH DISTRICT ATTORNEYS

Representative Mayger of Columbia County, Will Introduce a Bill to Create the Office of County Attorney—Present System is Deemed Cumbersome and Complicated—Bill to Change Jury System Will Also Be Introduced by Mr. Mayger.

George G. Mayger, representative to the legislature from Columbia county, is planning to introduce a bill at the coming session providing for doing away with the offices of state district attorneys, and providing in their stead the offices of county attorneys, says a Portland paper. This, he thinks, will be a great saving to the state, and will be more satisfactory in many other ways than is the present system.

According to the plans of Mr. Mayger, the county attorney will be paid a salary to be fixed by the county officials, and the authority of each will be limited to the county in which he is selected. There are at present nine district attorneys, who are paid by the state, and they are paid salaries the amount of which depends on the size of the district in which they serve.

The salary for this district is more than for any other, but a large number of the attorneys get about \$3000 a year. The work does not, as a rule, take very much of their time, and the pay is generally considered more than sufficient.

There will be nothing in the law if it is passed that will interfere with the present district attorneys, for it will not be effective till after the close of their terms. All the district attorneys in the state at the present time will hold office till four years from the last June election.

There is nothing in the present plan of the law to provide for any other change in judicial districts, the district judges to be elected as formerly. The bill will probably meet with some opposition on the part of those who have ambitions to become district attorneys at some future time.

Another bill that Mr. Mayger is planning to introduce is one providing for the agreement of juries in civil cases. It is the intention of this bill to provide for a verdict when nine of the 12 jurymen agree. According to the present law, one jurymen can hold up a decision if he can continue to stand against the other members.

This is deemed unfair in civil suits, and if the proposed law goes into effect it will require four jurymen to hang the jury. There is often much complaint made with the present jury system, and some believe that the method should be discontinued, and only competent judges be allowed to act in that capacity.

For this Saturday night the Peoples Warehouse will sell children's dresses, large and small, wool, part wool and cotton, at the uniform reduction of 25 to 33 per cent, or in other words, one-third off the regular price.
